Sir:

Applicants thank the Examiner for entry of the Examiner's amendment and the allowance of this Application.

Applicants do note, however, that the Examiner's characterizations of Applicants's claims on pages 2 and 3 of the November 8, 2007 paper accompanying the notice of allowance should not be construed to limit the claims, but rather describes certain embodiments. For example, claim 4 is a method claim and does not explicitly require a second scaling factor. Other language used by the Examiner in the November 8, 2007 communication should similarly be considered directed to specific embodiments, not to the claims as allowed.

Should the Examiner have any question or comment as to the form, content or entry of this paper, the Examiner is requested to contact the undersigned at the telephone number below.
